Air Conditioners In Loras College Student Housing

Due to safety restrictions and electrical load limitations, a limited amount of air conditioners will be approved based on health care provider documentation of medical necessity. Students requiring an air conditioner must submit an air conditioner request form that has been completed by their health care provider. This documentation must be submitted each academic year. Approval of an air conditioner in the past does not guarantee the continued use of an air conditioner.

The student will provide their own air conditioner, not to exceed 5200 BTU's, complete with side curtains and appropriate angle stops to facilitate installation. Window modifications are not allowed. Loras College does not provide air conditioners.

The student may install their own air conditioner. To ensure the unit is secure in the window, the student should submit a request via email to fixmyroom@loras.edu for the maintenance department to check the air conditioner.

The maintenance department will install the student's air conditioner, if requested. The student should submit a request via email to fixmyroom@loras.edu for the maintenance department to install the air conditioner.

The Student Health History Form and vaccine record showing proof of receiving **2 MMR** immunizations on or after their first birthday and at least 30 days apart **OR** laboratory evidence of immunity (Rubeola and Rubella titers and Mumps IgG immune status) must be on file in the Health Center before the air conditioner request can be approved.

Air conditioners must be removed by October 30 unless the health care provider requests an extension. Please contact the Health Center for approval if the air conditioner is needed during the spring semester.

Students must submit the completed air conditioner request form by July 31 to:

Loras College Health Center

1450 Alta Vista

Dubuque, IA 52001

Phone: (563) 588-7142

Fax: (563) 588-7659

Email: tammy.marti@loras.edu

The Loras College Health Center will notify the student via email if their request has been approved or denied.
