Teachers Prepared

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

- [Academic Major](#)

Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2022-23.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

What are CIP Codes?

No teachers prepared in academic year 2022-23

If your program has no teachers prepared, check the box above and leave the table below blank (or [clear responses already entered](#)).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (<https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55>).

Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2022-23. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education–Chemistry" category.

Program Assurances

THIS PAGE INCLUDES:

>> [Program Assurances](#)

Respond to the following assurances. Teacher preparation programs should be prepared to provide documentation and evidence, when requested, to support the following assurances. ([§205\(a\)\(1\)\(A\)\(iii\)](#); [§206\(b\)](#))

Program Assurances

Note: This section is preloaded from the prior year's IPRC.

1. Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.

- Yes
 No

2. Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.

- Yes
 No

3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.

- Yes
 No
 Program does not prepare special education teachers

4. Prospective general education teachers are prepared to provide instruction to students with disabilities.

- Yes
 No

5. Prospective general education teachers are prepared to provide instruction to limited English proficient students.

- Yes
 No

6. Prospective general education teachers are prepared to provide instruction to students from low-income families.

- Yes
 No

7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.

- Yes
 No

8. Describe your institution's most successful strategies in meeting the assurances listed above:

The Elementary and Secondary Teacher Education programs at Loras College are Iowa Department of Education approved preparation programs for licensure and endorsements in the State of Iowa. The Teacher Education Program is in full compliance with the requirements for practitioner preparation in Iowa which reflects the assurances above. The Teacher Education Program endeavors to place its clinical students in locations that provide diverse settings (e.g., rural and urban), and that provide experiences with diverse populations (e.g., EL, low SES, students with disabilities). Many students at Loras College come from and return to Illinois, and the Teacher Education Program maintains active communication with the Illinois Department of Education and Illinois local education agencies (as well as communication with the agencies from surrounding states).

Report Progress on Last Year's Goal (2022-23)

1. Did your program prepare teachers in mathematics in 2022-23?

If no, leave remaining questions for 2022-23 blank (or [clear responses already entered](#)).

- Yes
 No

2. Describe your goal.

The goal will be to recruit 4 students in K-8 mathematics and 4 students in 5-12 mathematics.

3. Did your program meet the goal?

- Yes
 No

4. Description of strategies used to achieve goal, if applicable:

Faculty advising of students is the primary strategy to achieve any enrollment goal.

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

In the reporting period there were 3 students in K-8 mathematics and 2 students in 5-12 mathematics. Faculty advising and recruitment will remain the primary strategy.

6. Provide any additional comments, exceptions and explanations below:

Enrollments in Teacher Education have been in decline. Given this trend it is not unexpected to see a decrease in K-8 and 5-12 mathematics enrollment.

Review Current Year's Goal (2023-24)

7. Is your program preparing teachers in mathematics in 2023-24? If no, leave the next question blank.

- Yes
 No

8. Describe your goal.

The goal will be to recruit 4 students in K-8 mathematics and 4 students in 5-12 mathematics.

Set Next Year's Goal (2024-25)

9. Will your program prepare teachers in mathematics in 2024-25? If no, leave the next question blank.

Assessment Pass Rates

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. [\(S205\(a\)\(1\)\(B\)\)](#)

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact RTI's Title II Support Center and your testing company representative.

On this page, review the questions regarding your program's use of technology, and update as needed.

Note: This section is preloaded from the prior year's IPRC.

Use of Technology

1. Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request. ([§205\(a\)\(1\)\(F\)](#))

Does your program prepare teachers to:

- a. integrate technology effectively into curricula and instruction

Yes

No

- b. use technology effectively to collect data to improve teaching and learning

Yes

No

- c. use technology effectively to manage data to improve teaching and learning

Yes

No

- d. use technology effectively to analyze data to improve teaching and learning

Yes

No

2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

The standards-based (Iowa Core Technology and ISTE) use of technology and its implications for classroom instruction is developed throughout the undergraduate Teacher Education Program. Using several frameworks such as TPACK and SAMR, pre-service teachers learn how to integrate both web-based tools and mobile devices with course-specific apps throughout their curriculum and instruction coursework, and often with supervised applications in their clinical work in schools with a variety of populations (such as with children who are at-risk for reading difficulties and EL students). Pre-service teachers learn to use apps with young students to help them document and reflect on their learning. Elementary Teacher Education candidates also become familiar with a web-based assessment system: Iowa TIER/FAST. Secondary Teacher Education candidates complete an extensive unit on educational technology and integrate Web 2.0 tools to differentiate instruction. Swivl is used in the Secondary Professional Development School (PDS) to capture students' teaching for analysis and reflection. Candidates also become familiar with the use of online tools and resources that accompany commercial curriculum. In addition, candidates have the opportunity to develop app-based digital and green screen videos to document learning; use other tools such as PowerPoint (with embedded audio and video), Canva, Google Slides, Prezi, Screencastify, Seesaw, and Google Docs; they also create websites using Weebly to document their clinical work, and for their capstone digital portfolio in student teaching to document and provide evidence of proficiency in the 10 InTASC Standards. Candidates are also familiar with Zoom and Google Meet.

Teacher Training

THIS PAGE INCLUDES:

>> [Teacher Training](#)

Provide the following information about your teacher preparation program.

(§205(a)(1)(G))

Note: This section is preloaded from the prior year's IPRC.

Teacher Training

1. Provide a description of the activities that prepare general education teachers to:

a. Teach students with disabilities effectively

All Teacher Education candidates take a Foundations of Inclusive Education course (3 credits) at the beginning of their program, and Differentiated Instruction (3 credits) near the end of their program. These courses provide some preparation in working with students who have disabilities. All Elementary and Secondary Education majors receive core-course preparation in the instruction of students with dyslexia.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

No

c. Effectively teach students who are limited English proficient.

Candidates receive instruction in the teaching of English learners in their first courses, EDU 200 Foundations of Education and EDU 265 Multicultural Education, and in the Elementary and Secondary Differentiated Instruction courses. All Reading K-8 Endorsement students receive specific preparation in the instruction of students with limited English proficiency.

2. Does your program prepare special education teachers?

- Yes
 No

If yes, provide a description of the activities that prepare *special education teachers* to:

a. Teach students with disabilities effectively

Special education endorsement students (Instructional Strategist I K-8) complete a comprehensive program that prepares them to teach students with mild to moderate, high-incidence disabilities. Students complete coursework in assessment, academic interventions, positive behavioral support, instructional decision-making, and transition.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

Special education endorsement students (Instructional Strategist I K-8) participate as a member of individualized education program teams as part of their advanced clinical placements.

c. Effectively teach students who are limited English proficient.

Special education endorsement students (Instructional Strategist I K-8) receive some of this instruction in their two-course sequence: Instructional Strategies and Behaviors I and II. Many Instructional Strategist I students are also Reading K-8 Endorsement students. These students receive preparation to provide instruction to English learners in their Foundations of Reading course.

Contextual Information

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card (see below). The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

The Loras Teacher Education Program administers a focus group interview in EDU 200 Foundations of Education to measure the Dispositions, Attributes, and Proficiencies (DAP) of teacher candidates in the introductory phase of the program. The DAP scores have shown to be an important indicator of success in teacher education. The Test of Regulation in and Understanding of Social Situations in Teaching (TRUST) is also administered in EDU 200 Foundations of Education. Both sets of data (DAP and TRUST) enable program faculty to make informed decisions on individual teacher candidates, and serve as the impetus to have candid conversations with students to improve skills which are necessary for success in PK-12 classrooms. Iowa institutions are no longer required to administer the PRAXIS II test for program completion.
